Alexa,

Did I not respond to this? I don't remember seeing your email last week.

Elk Hills folks said it they had been told by long timers at the plant that it had been represented to them that the Tulare was exempt as part of the sale from the DOE to Oxy. I asked for documentation. This does not provide that.

Michele-

Would it be accurate to say that through this submittal that Elk Hills is now asserting it has an aquifer exemption instead of applying for one as a part of its permit renewal? Or were they just providing info that we requested?

Thanks,

Alexa
